Free Podcast Workshop

Attendees Will Learn:

Grades: 7-12

- Overview of podcast equipment.
- Tutorial of Audacity, a free audio editing software.
- Gain necessary interviewing skills.
- Outreach and social media skills.
- Sound effects and field recording.
- Plan, prepare, record and upload a podcast.
- Editing and production skills.

Podcasts are a cool, creative and easy way to share stories and present ideas. They can be shared all over the world! In this 2 day workshop we will learn all the needed skills to complete a podcast from idea to finished product! A Third optional day will allow participants to put newly learned skills into action.
